Learn more about yourself and get some ideas about what occupations, careers, or college majors will fit your interests and your career personality. A fun and revealing activity in which you can develop greater self-awareness and learn about jobs and work environments that they may be a good fit for you and help lead you to a rewarding career in the future.

Adapted from exercise created by Richard Bolles; based on Dr. John Holland's theory that people and work environments can be loosely classified into six different groups.
